

**SIMPATEC**

# INJECTION MOLDING TECHNOLOGIES FOR THE FUTURE

**May 30, 2024**

**De Ruwenberg Hotel**

**Sint-Michielsgestel**

- Status
- Trends
- Innovations

In partnership with:

**Moldex3D**

**MiDAY BeNeLux 2024**

# INTENTION

Over the past 10 years, we continuously challenge ourselves to bring fresh thinking and useful tools to impact the plastic industry.

Of course, it would never be achieved by us solely.  
Therefore, we created this platform – **Molding Innovation Day (MID)**.

Partnering with various industrial peers and brainstorming together, we came up with lots of innovative ideas and brilliant solutions to answer the challenges customers faced, from upstream to downstream.

We are currently centered on embracing the latest global trends in Sustainability, and we would like to invite you to join and to discover the most suitable solutions tailored to your needs.

We always believe – Together, We are Stronger.

During our **Molding Innovation Day BeNeLux 2024** at **De Ruwenberg Hotel** in **Sint-Michielsgestel**, you will gain insights into the latest developments, new technologies, and exclusive knowledge from industry leaders and experts.

Let's break our limits together!

The conference will be held in English.

**Thursday, 30 May 2024**  
**De Ruwenberg Hotel**  
**Sint-Michielsgestel, the Netherlands**

**PROGRAM**

09:00	<b>Registration</b>
09:30	<b>Welcome – Fabien Buchy – General Manager, SimpaTec</b>
09:45	<i>Digitalization in the tool enquiry process - As an injection molder, you can receive comparable tool offers with just a few clicks, find new toolmakers and win more projects</i> <b>Christian Götze – Founder &amp; CEO, Toolplace</b>
10:15	<i>ENGEL sim link® From design to sampling - Opportunities of data transfers between simulation and production</i> <b>Ruud Heerkens – Application &amp; Digitalization Engineer, ENGEL Benelux</b>
10:45	<b>Coffee Break</b>
11:15	<i>Injection Molding for a sustainable world</i> <b>Drs. Cristel Rijnen – Directeur, Injection Point</b>
11:45	<i>Moldex3D 2024 - Charging Moldability</i> <b>Larry Ren – Regional Manager, Moldex3D</b>
12:15	<b>Lunch</b>
13:15	<i>Predicting Mechanical Performance &amp; Processing of Core-back Foam Injection-molded Parts</i> <b>Dr. Angel Yanev – Staff Scientist, Sabic</b>
13:45	<i>Fiber attrition in molding of LFT and recycled reLFT materials</i> <b>Dr. Ali Rezaei – Senior Scientist Specialist, Brightlands Materials Center</b>
14:15	<i>CaMeCAD: Rule-based Manufacturability Analysis of CAD Designs</i> <b>Dr. Joren Pelfrene – Research Engineer, Flanders Make</b>
14:45	<b>Coffee Break</b>
15:15	<i>Quick Mold Change – Keep It Simple &amp; Safe</i> <b>Maarten Eggenhuizen – Sales Engineer / Connectors, Stäubli Benelux</b>
15:45	<i>Precision Connectors - High Cavitation Tooling Concept (Case study by Tecnifreza)</i> <i>European know how creating sustainable circular products (Case study by E&amp;T)</i> <b>Filipa Lopes – Sales   Rui Silva – Project Management Coordinator, Tecnifreza, WeMold Group</b>
16:15	<i>Design For Manufacturing – The Integrated Workflow</i> <b>Victor Tsai – Sales Manager, SimpaTec</b>
16:30	<i>Q&amp;A. End of Event</i> <b>Victor Tsai – Sales Manager, SimpaTec</b>

# Moldex3D

# LOCATION

**Molding Innovation Day BeNeLux 2024** will take place in Sint-Michelsgestel:  
at [De Ruwenberg Hotel](#)

#### Location details

Ruwenbergstraat 7, 5271  
AG Sint-Michielsgestel,  
Netherlands

---

#### Your contact:

Victor TSAI  
170, rue de la République  
68500 GUEBWILLER

Phone :+33 3 67 26 07 73
