# SimpaTec Usermeeting 2021

---

SAVE THE DATE

---

May, 18 and 19, 2021, Villa Quai Sturm, Strasbourg, France

We are at the puls of time for you. Always.

Continuously filtering the latest, global trends and bundling creative and innovative ideas into a powerful product portfolio - is our goal. Our roots - and our path - is and remains 'simulation'.

Sharing knowledge and experience through precise communication with you, our customers, is our greatest asset.

Break your limits. Challenge us.

# INTENTION & CONCEPT

Throughout the years the personal contact with you has always played an extremely important role for us. Especially now, during these extraordinary times in which we all professionally, economically and personally, suffer from the effects of the COVID-19 pandemic situation. For us it is clear - a face to face contact - of course adhering to all the required hygiene regulations - cannot be replaced by any digital event. This and our company philosophy, to guarantee our users a precise, solution-focused communication platform, are the reasons why we decided to continue with our old tradition - to organize annual user meetings. To stay with our proven two years rhythm - in 2021 an International Usermeeting is scheduled.

To offer our users even more content and space for knowlege exchange and discussions, we again comply and extend the topics to the entire field of our CAx products like introduced in last year's concept. Of course, the focus of the two-day event will once more be set on practice-oriented technical contributions by our users. The presentations are going to be held in parallel sessions for the entire group of participants. A particular focus will continue to be set on Moldex3D, but also users of MSC software tools especially Digimat, and 3D\_Evolution | 3D\_Analyzer | 4D\_Additives are invited to catch up in separate topic-specific lectures, workshops and discussion rounds. Create your own conference program.

The conference language is English.

Selected, well-known companies will additionally present their current industry-specific development trends, news and innovative products in our exclusive exhibitor area.

We look forward to you!

Practice-oriented technical contributions from the circle of users are an integral part of our usermeetings.

# CALL FOR PAPERS

Not only for you, our participants, it is interesting and exciting to see, which experiences, findings and of course suggestions for the own use of your CAx simulation tool will be revealed to the auditorium every year.

Give us an insight into your practical experience. Show us your application examples, case studies or let us share your view of things when performing the work. As a special thank you one day attendance will be free of charge.

As part of our International Usermeeting 2021 we gladly offer you the opportunity to be a speaker whether it being in a detailed 20-minute progress report or in the section "Short Reports".

## Please choose:

The International SimpaTec Usermeeting 2021 will take place in Strasbourg, the capital of the Alsace-Champagne-Ardenne-Lorraine region in north-eastern France and the official seat of the European Parliament. The whole center of the city has been declared a World Heritage Site by UNESCO due to the wonderful architecture.

# LOCATION

One of the beautiful old houses near the center of Strasbourg is the **Villa Quai Sturm**, our event location.

Parking is allowed in the street in front of and surrounding the building, alternatively there are parking possibilities at the nearby located **parking house „Opéra Broglie“** (700 m, 3 minutes walking distance).

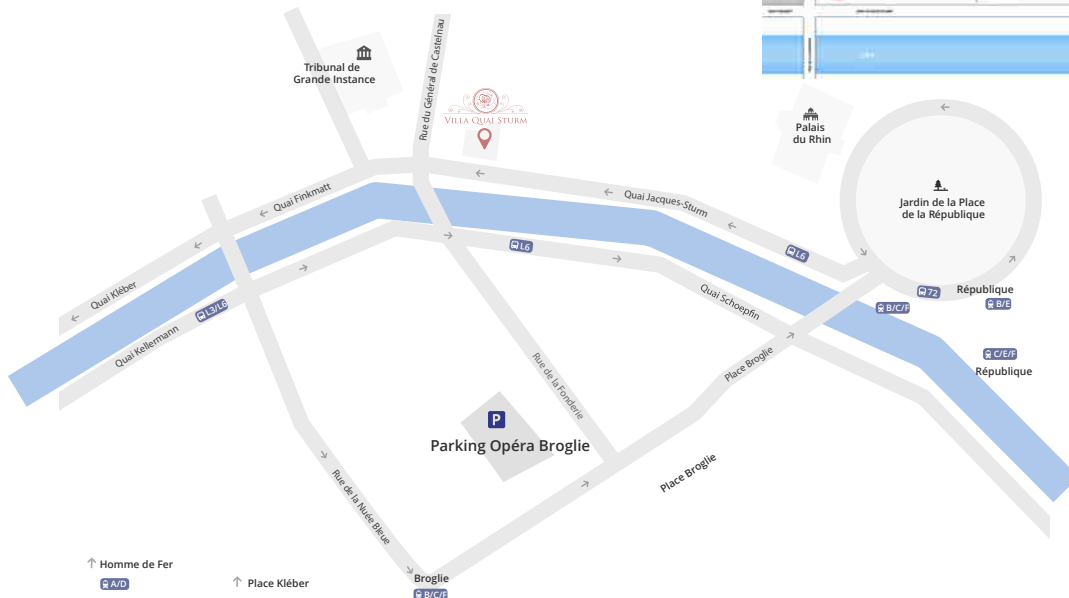

Your addresses for the navigation device:

\_ **Villa Quai Sturm**

1 quai Jacques Sturm, 67000 Strasbourg, France.

\_ **Parking house „Opéra Broglie“**

2 Impasse de Bischheim, 67000 Strasbourg, France
